

## CLERMONT COUNTY, OHIO - NOVEMBER FLU SHOT CLINICS

**CLERMONT COUNTY, OHIO** - Every year, millions of influenza cases are reported nationwide, generally peaking in January. With this in mind, the Clermont County General Health District has scheduled a series of shot clinics for those most at risk of contracting the flu.

**Those who are at high risk for complications from the flu include:**

- All children aged 6-59 months
- Pregnant women
- People 50 years of age and older
- People of any age with certain chronic medical conditions
- People who live in nursing homes and other long-term care facilities

**Others who should receive a flu vaccine are:**

- Household contacts of persons at high risk for complications from the flu
- Household contacts and out of home caregivers of children less than 6 months of age
- Health care workers
- Anyone who wants to decrease their risk of influenza

The Clermont General Health District will offer the vaccines for \$15. Medicare Part B and Ohio Medicaid will be accepted (no HMO's).
